- Schools (Outdoor Areas)
- Industries
- Gram Panchayats, Etc.

Always read and follow label instructions.

POWER FOGGER: PRECISION PEST CONTROL WITH CUTTING-EDGE TECHNOLOGY AND EFFORTLESS EFFICIENCY.

Special Features:

- Lightweight (8.5 kg) and portable
- Corrosion-resistant stainless steel parts
- Maintenance-free with no moving parts
- Quick, easy start with an air compressor and electronic circuit

Technical Details:

- **Type:** Thermal aerosol pulse jet fogging machine
- **Starting mechanism:** Electronic circuit with 6 volts battery
- **Air compressor:** Compact type-D.C Motor for auto starting
- **Carburetor:** Diaphragm type with petal valve
- **Fuel consumption:** 1.5 m/hr. petrol
- **Chemical consumption:** 25-30 L/ hr. diesel & chemical
- **Application rate:** Rating 0 to 25 L/ hr.
- **Chemical tank:** Diesel + chemical- 4.6 L-HDPE
- **Fuel tank:** 1.3 L - aluminum tank
- **Weight (empty):** 8.5 kg (empty)

Packing:

1 unit in 1 carton box

Always read and follow label instructions.
