

ARBUDA PLASTIC RBS

The ARBUDA Plastic Rodent Bait Station offers efficient rodent management while meeting pharmaceutical audit standards. Its design features:

- **Durable plastic construction for reliable performance**
- **Effective rodent trapping & baiting mechanism**
- **Plastic body making it light in weight & more easy to transport**

Always read and follow label instructions.

RELIABLE PLASTIC BAIT STATION - EFFICIENT RODENT CONTROL, AUDIT-COMPLIANT DESIGN.

Description and Features:

Arbuda Rodent Bait Station (Plastic) is designed to adopt rodent trapping & baiting which also matches the criteria of audit requirements in pharmaceuticals

Why Plastic Bait Stations are better than Metal one?

- Safe for transportation as plastic does not get dented or bend
- Does not get rusted in areas having humidity or wet weather conditions
- Recyclable plastic materials have been used
- Cheaper in cost, almost 30-40% cheaper than the metal one
- Can be used with poison baits and glue traps

Packing:

25 bait station in 1 carton box
