

ZAPPITO

Smart Mosquito Swatter

A mosquito racket, or electric fly swatter, is a handheld, rechargeable device shaped like a tennis racket that electrocutes mosquitoes and other flying insects on contact, using a high-voltage, low-current electric grid (often triple-layered for safety) activated by pressing a button, providing a chemical-free, instant kill for indoor and outdoor use, often with an LED light and portable design.

- Mosquitoes

Always read and follow label instructions.

HOUSEHOLD INSECTICIDE FOR THE MANAGEMENT OF HOUSE FLIES, COCKROACHES & MOSQUITOES.

Usage:

- Ideal for Mosquitoes, Flies, and other Flying Insects
