

RODOL

Herbal Rodenticide

Is a natural rodenticide designed to control rodents and mice effectively. Made from 100% herbal ingredients, it provides a safe and eco-friendly solution for rodent management. Ideal for both indoor and outdoor use.

For control of:

- Rats/ Mice/ Mouse

This herbal formula is non-toxic to pets and humans, offering a sustainable and efficient alternative for pest control.

Always read and follow label instructions.

RODOL: NATURE'S SHIELD AGAINST RODENTS-SAFE, EFFECTIVE, AND ECO-FRIENDLY.

Active Ingredient: Herbal Rodenticide

Features:

- Made up from plant derivatives as natural ingredients
- No risk of secondary poisoning or odor from dead rodents.
- Comes as a scoured cake, cut into six different pieces for easy application
- Non-toxic, leaves no harmful residues.

Mode of Action:

Rodol disrupts rodents' water absorption, leading to dehydration, reduced blood volume, and circulation arrest, ultimately causing death.

Recommended Dose:

30-50 grams per bait station. Adjust according to the level of rodent infestation and placement conditions.

Antidote:

Accidental ingestion of it by pets or children is simply treated by giving laxatives, plenty of water, and electrolytes as per requirement.

Packing: 100 gm

Always read and follow label instructions.
